## I.S.O.SPRAY and I.S.O.FIX Adhesive

- Firestone I.S.O.Spray insulation adhesive is a two-part polyurethane adhesive system that requires a high-pressure, heated spray system to apply. Contact your Firestone Sales Representative for further information.

- I.S.O.Spray may be used to anchor roof insulation to various roof decks and for multi-layer insulation applications.

- I.S.O.Spray consists of A and B components, which are purchased separately.

- Actual coverage will vary depending on surface, materials, air temperature and humidity.  
Rougher surfaces, such as existing gravel-surfaced built-up roofs, will reduce the coverage 25-40%.
